HEAD LECTURERS

The Prayer and Word Community (Croatian: ZMR) has a dual role: on the one hand to evangelize the Church or undertake the New Evangelization, and on the other to perform hagiotherapy or anthropological medicine. In evangelization the Good News is proclaimed and the Church is helped to become a witness to the faith. Through hagiotherapy, "broken hearts" are healed as Jesus healed. Jesus carried out these two tasks or charismas. He first proclaimed the Gospel and then treated every disease and every infirmity.

The founder of the Community and the founder seminars for the evangelization of the Church and hagiotherapy is Professor Dr. Tomislav Ivančić, a priest.
